### TECHNICAL SKILLS:

#### Proficient In:

- JavaScript
- React.js
- Python
- Html
- CSS

#### Comfortable In:

- Node.js
- MongoDB
- MySQL
- Bootstrap
- Git

### SUMMARY

A Self-starter and constant learner with keen interest in coding and web-development. Seeking an opportunity which helps me grow and contribute to organization.

### PROJECTS

#### ▪ E-COMMERCE APP (INDIVIDUAL PROJECT):

- Implemented an e-commerce website (e-mochi, footwear for women) that allows user login, dynamically add/remove/change products of shopping cart.
- It uses react context API for state management and firebase for user authentication.

Skills Involved: react.js, material UI, firebase, JavaScript, html, CSS

#### ▪ CAMPING APP (COURSE PROJECT):

- A Camping website that supports user login, creating/editing/deleting user reviews and comments.
- Fully responsive and implemented using full CRUD functionality to create and post information about campgrounds.

Skills Involved: node.js, MongoDB, express.js, JavaScript, html, CSS

### COURSEWORK & CERTIFICATIONS

- Web Developer Bootcamp, Udemy
- Responsive Web Design, freeCodeCamp
- JavaScript Algorithms and Data Structures, freeCodeCamp

### TECHNICAL EXPERIENCE

Design Engineer, EmWiB Technologies, Hyderabad

Apr 2006-Sep2007

- Implemented the uplink and downlink MAP management, in C, as per OFDM MAC sublayer of 802.16 standard.
- Also developed DCD and UCD MAC management message and burst profile as per 802.16 standard in C
